

01 Profile

Interface designer with 3+ years crafting digital products for regulated industries: insurance, banking, logistics and public infrastructure. Consistent, brand-aligned UI design backed by design systems and Figma UI Kits. I deliver design documentation and build HTML/CSS prototypes to validate technical feasibility and speed up developer handoff.

02 Experience

UI/UX Specialist — Enterprise projects

June 2024 – Present

Sofka Technologies

Interface design for complex enterprise platforms: visual systems, components and UI Kits in Figma, style and interaction documentation, and high-fidelity navigable HTML prototypes (1:1 with Figma).

- **Sura México** — led the UI for the policy quoting and issuing platform: responsive system, multi-role flows and ongoing support to the development team.
- **Summa** — full migration of the internal platform: design system, component library and HTML prototypes as living specification.
- **Metro de Medellín** — redesigned user and permission management, simplifying key flows and improving traceability.
- **Yappy** — multi-device account enrollment flow, with a high-fidelity navigable prototype and microinteractions.
- **Logyca** — end-to-end design of the inventory management platform, including animated prototypes.
- **Crystal** — complete design from scratch: flow architecture, visual system and navigable prototypes.
- **UX/UI Practice Lead** — quality reviews, technical interviews and mentoring for the design team.

UI/UX Designer — Freelance

January 2021 – Present

Clients in healthcare, retail and services

Interface and visual system design with navigable Figma prototypes. WordPress and Shopify development and customization (themes, sections and custom layouts), communicating progress directly with each client.

Visual/UI Designer

January 2021 – November 2022

SanMarteam

Led brand identity and web interface design for multiple agency clients, ensuring coherence between brand and digital product.
